L-4 Experience a One-of-a-Kind Puzzle Library

Do you have the kind of mind who craves not only a brainteaser, but appreciates the ingenuity of an uber-challenging puzzle? Imagine the full-scale experience of a puzzle that not only sits in the hand but surrounds you in a human-size environment. Welcome to a puzzle library created by renowned puzzle box maker Kagen Sound, who describes himself as "building the box for others to think out of."

This private environment, tailor made in a donor's home, contains nine hidden compartments, each unlocked by a precise mechanism. Think escape room, but one with tasks that range from locating a hidden button, to sliding a mystery panel in the right direction, to masterminding even more complex challenges.

Stay energized with \$100 worth of Pagliacci - a gift certificate that delivers enough brain food for you and your group of 4 to 8 people to open all the puzzles for three or four hours along the way - to discover the key to the tenth and final compartment. Let the game begin!

No kiddos under 6 years of age please, and every child must stay paired with an adult.
